

Saunak Patel

Middletown, DE • (267) 909-3666 • sameer.patelde@gmail.com • [Linkedin](#) • [Github](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

- Recent Computer Science graduate with strong hands-on experience in JavaScript, GitHub, and modern web/mobile frameworks.
- Skilled in reading, debugging, and updating code in queue-driven environments, with a foundation in software engineering, data analysis, and version control best practices.
- Recognized for quickly learning new technologies, delivering reliable solutions, and collaborating effectively across research, academic, and development teams.
- Seeking to contribute technical skills and detail-oriented problem-solving to support cloud migration and security-focused initiatives.

SKILLS & CERTIFICATIONS

Programming Languages: [Python](#), [Java](#), [C++](#), C, [JavaScript](#), [TypeScript](#), [HTML & CSS](#), [Kotlin](#), SQL, Swift, Objective-C, JSON, XML

Frameworks & Libraries: [React](#), [React Native](#), Expo, Bootstrap, Node.js, Express.js, Django, Flask, Spring, MUI, [Raylib](#), JUnit, Pytest

Tools & Platforms: Git/GitHub, TensorFlow, Pandas, Keras, PyTorch, Scikit-learn, NumPy, VS Code, JetBrains, Xcode, Android Studio, Maven, Figma, SCRUM, Microsoft Azure, Amazon Web Services, Apache Guacamole, Pentaho

Others: REST APIs, Agile, Unit Testing, Data Structures & Algorithms, Object-Oriented Programming, SOLID Principles

Certifications: CodePath ([TIP102](#)), [Google UX Design Specialization](#), [AWS AI Practitioner Challenge](#)

PROFESSIONAL EXPERIENCE

LexisNexis Risk Solutions - Software Engineer I (Remote) AUG 2026 - PRESENT

- Collaborating on software development workflows and projects to deliver tailored solutions for clients.
- Conducting thorough bug reviews and clean-ups using Pentaho Data Integration, improving system reliability.
- Gaining valuable insights from senior engineers, adopting best practices in code reviews and software development.
- Creating production jobs for various clients to facilitate data updates and reviews.

LexisNexis Risk Solutions - Software Engineer I (Remote and Contract) NOV 2025 - AUG 2026

- Collaborated with the Batch Operations team to enhance security protocols for client passwords and secrets.
- Conducted thorough bug reviews and clean-ups using Pentaho Data Integration, improving system reliability.
- Gained valuable insights from senior engineers, adopting best practices in code reviews and software development.
- Created production jobs for various clients to facilitate data updates and reviews.

Dormshops - Software Engineer Intern (Remote) MAY 2024 - AUG 2024

- Developed a Swift + Back4App mobile app, reducing load time by 20%.
- Provided feedback and suggestions for UX design enhancements, contributing to a more intuitive user interface.
- Contributed 10+ feature ideas in planning meetings, with 3 implemented in production.

Research Institute of Tactical Autonomy - Research Assistant (Dover, DE) JUN 2024 - OCT 2024

- Applied machine learning in Python to predict outcomes, enhancing decision-making accuracy.
- Analyzed neural activity datasets to identify patterns in brain function.

Code Differently - Technical Instructor Assistant (Wilmington, DE) MAY 2023 - AUG 2023

- Built web applications in React + Django, improving UI responsiveness.
- Instructed 10+ interns in developing using HTML/CSS and JavaScript, boosting project success rates.

Delaware State University - Computer Science Tutor (Dover, DE) SEP 2022 - MAY 2024

- Tutored students in Python & Java, reducing code errors and increasing comprehension.
- Guided debugging sessions that improved assignment completion rates.

EDUCATION

Delaware State University
Bachelor of Science in Computer Science

Graduated: MAY 2025
GPA: 3.80

Awards: 4x Dean's List, 4x President's List, Computer Science Student Association (CSSA) Member, Mr. Computer Science for CSSA Club, Summa Cum Laude

Key Courses: Data Structures & Algorithms, Systems Architecture, Operating Systems, Computer Networking, Mobile Computing, Object-Oriented Programming in C++, Intro to Data Science, Artificial Intelligence

PROJECT EXPERIENCE

Culture Credit (DECEMBER 2024 - OCTOBER 2025) - *React Native, Flask, MySQL* - Led frontend development in React Native + Expo for a student rewards app; implemented responsive UI and integrated backend API, improving user engagement by ~25%.

Snake Game (MAY 2022 - AUGUST 2022) - *Godot* - Created a challenging 2D platformer inspired by the Souls series, enhancing scripting and player engagement.

Bit Souls (OCTOBER 2024 - DECEMBER 2024) - *Java Swing* - Built a classic arcade game with smooth controls and a responsive design.

LEADERSHIP & INVOLVEMENT

Mr. Computer Science, DSU Computer Science Student Association (CSSA) – I represented the CS department on the CSSA board as Mr. CS, attending board meetings, hosting events, and providing support to members. I also co-organized DSU's annual hackathon, coordinating a 24-hour coding contest with participant presentations, as well as workshops, scavenger hunts, raffles, and games.
